

# Resource Efficient Cleaner Production (RECP) Assessment and Capacity Building Programme for Local Industries

The Ministry of Industries invites the industrialists to register for the above Pilot Project.

## Project Benefits

- Improve resource efficiency (energy, water and material) of selected industries in Sri Lanka
- Develop a Resource Efficient Manager within the industry
- Develop capacity among the staff of selected industries on RECP
- Encourage other industries in these sectors to follow the RECP concept

## Eligibility Criteria

- Target industry sectors
  - Electrical & Electronic Sector
  - Automobile component manufacturing & assembling sector
  - Plastic & Rubber sector
  - Wood & Wood-based Industries sectors
  - Ceramic & tile sector
  - Paint manufacturing sector
  - Metal sector
- Manufacturing plant should be located within Western Province
- Commitment on current and future works in sustainable practices

In this regard, an awareness programme has been arranged to be held on 24 April 2023.

## Register through
